

Senok Automobile Private Limited

13th May 2014

To Whom It May Concern ,

This letter is to certify that Cally designers was selected as the official contractor for the renovation and construction of the new Audi Colombo showroom and the designing glass wall, situated in no. 3, R. A. De Mel Mawatha, Colombo 05.

The showroom was built under direct specifications drawn up by the architectural team from Audi AG (Germany) and further, the entire construction was routinely scrutinized by the visiting architects who commended on the efforts made by Cally designers in finding alternative and cost effective solutions with no compromises made on quality. The requirement was that the final appearance of the showroom should emanate the core essence of Audi, and this was achieved to the highest degree by Malcolm De Silva, the proprietor of Cally designers.

Further, the challenge of constructing special areas for which all components had to be designed from scratch, such as the fully illuminated handing over room and the extruding facade (both of which are unique concepts and never before made) were successfully undertaken by Malcolm De Silva.

On completion of the Showroom and the facade, Malcolm De Silva had exceeded all expectations and had delivered a product that conformed to the strict international standards which were expected by both Audi AG and Senok Automobiles (PVT) LTD for displaying their premium brand of Audi luxury cars.

Your Sincerely ,

SENOK AUTOMOBILE PVT LTD
